
Obituary - Francis Brady

A small man, stocky and ever smiling. He was born in Manchester and after serving in the army he opened his own business making car seats and had the constant support of his wife Marjorie and son Anthony.

He was twice President, in 1970 and 1980, and was a visitor to other Circles. He enthusiastically organised entertainments for many years and many older brothers will recall the frequent barbecues given by Marjorie and himself at their home in Coppenhall.

MAY HE REST IN PEACE
