
Obituary - Peter Kerr

Peter was born in Mossley Hill Liverpool, educated at St Anthony's School and trained in mechanical engineering at Liverpool Technical College. He married Dorothy in 1953 and had two children, Martin and Angela.

The family moved to Knutsford in 1967 and Peter continued his work at management level in a variety of industries. It was in the early sixties that he first entered the Catenian Association in Liverpool and he joined Knutsford Circle in 1995 after a lapse of some years. Although he did not take up any Catenian office he was a regular attendee at meetings and greatly supportive of all the social activities.

He was a keen golfer and his wife, Dorothy, and son Martin, who is permanently confined to a wheelchair, were well known both at church and in the town. His daughter Angela, lives in Bath with her husband and three children and Peter had a special love for his grandchildren, seeing them as often as possible.

MAY HE REST IN PEACE
